## key with details

**m Medicare Approved** See your doctor for details and qualifications.

**Slip-Resistant** Features the SAS X-tra Grip Sole™, using the Brungraber Mark II testing for wet and oily conditions. The unique hexagon-shape rubber outsole pattern helps to channel floor spills to maintain effective contact with floor surfaces and is non-marking.

**i Italian Crafted** When we decided to create an elegant women's shoe that best exemplifies our standards of quality, we looked to the hills of Tuscany, Italy. By word of mouth, our team discovered a small family-owned company with a heritage and love of crafting fine leather shoes. Our plan was to learn the processes for making a quality dress shoe and bring home the experience to our Master Shoemakers. Working with these artisans hand in hand, we developed a unique approach that embraces superb craftsmanship and the extraordinary comfort, design and engineering from SAS. Any particular style or color marked with this symbol in this catalog may be manufactured in San Antonio, Italy or both locations.

**S S-Motion Technology™** Built into our exclusive SuperSoft® lightweight sole, this new technology supports the three part walking motion, starting first at the heel strike, across the mid-stance (arch) and through the inside ball forward to the final toe push off. S-Motion Technology supports natural stride, making way for improved performance walking.

**Please Note** Shoes marked with the symbols above apply to that shoe style only, not every shoe on the page.

**S SAS Employee** Models with the **S** icon by their image are SAS employees from our factory and office in San Antonio, Texas. We're proud to showcase some of the men and women who work tirelessly to give you ultimate comfort.

# story of san antonio shoemakers

In the 70s, two men had a dream of making the most comfortable shoes in the world.

Terry Armstrong and Lew Hayden had a vision of how soft and comfortable genuine leather shoes should be made.

They would use the finest leather and quality materials, each pair crafted by hand with close attention to detail.

With passion, determination and the support of their families, the two visionaries pooled their resources to start their first factory in a corner of an old, unused aircraft hangar on the South Side of San Antonio. In 1976, San Antonio Shoemakers was born.

They were confident their shoes would sell themselves once tried on, and they were right. The SAS reputation grew by word of mouth and became a name people could trust for comfortable, quality footwear.

Our goal is to keep Terry and Lew's dream alive.

Today, San Antonio Shoemakers continues to be a family-owned business. We take pride in the legacy handed down to us by Terry and Lew.

At San Antonio Shoemakers, we take extra steps, so you can too! Thank you.

# WHERE *comfort* BEGINS

*Take a moment* to think about the shoes you're wearing right now. You probably haven't given much thought to where they were before they landed on your feet. If you happen to be wearing an SAS shoe, that one pair has had a whole host of experiences prior to leaving the factory and coming into your ownership. In fact, just one pair of our shoes can go through up to 100 different steps and assurances before they are declared SAS quality.

SAS has two operating factories: our original, established in 1976, in San Antonio, Texas and our Del Rio, Texas factory that opened its doors in 1985. While many shoe operations have looked overseas for inexpensive labor or materials, SAS sticks firmly to our founders' vision of handcrafted, genuine leather shoes, proudly made here in the USA.

In order to create SAS shoes, the ones that have come to be known as the "shoes you don't want to take off at the end of the day," there are 14 categories of operations that take place in our factories like leather selection, die-making, cutting, lasting and more. Within those categories approximately 80 different skilled pairs of hands are carefully constructing and inspecting each shoe to make sure the SAS shoes you choose are the best made pair of footwear in your closet.

# shoe FACTORY & general STORE

SAN ANTONIO, TEXAS ■ EST. 1976

## Turn-of-the-Century Charm

What is it that makes a shopping experience so memorable? One-of-a-kind atmosphere? Certainly. Unique finds? Almost always. Friendly service? Without a doubt.

Luckily, you can find all of that and more at the SAS Shoe Factory and General Store.

Stepping into our SAS General Store is like stepping back in time. The antiques and Americana novelties help paint that picture, but it's the engaging and friendly staff that really takes you back to when old fashioned values were the rule.

You can enjoy penny candy from our charming sweet shop or grab a scoop of your favorite ice cream flavor at our authentic ice cream parlor. Not to mention we're always popping up fresh popcorn for just 5¢ and our ice-cold soda is just 10¢.

## So why all the nostalgia?

The SAS brand is about the standards of yesteryear. The artistry of handcraftsmanship. The timeless quality of genuine leather. And the reliability of relaxed comfort. Those standards are present in every pair of shoes we make. And you'll see that throughout the SAS General Store in our shoes and handbags on display. Our General Store is located right next door to our San Antonio factory, which offers regularly scheduled tours to the public.

At SAS we believe we have the highest quality standards in the industry. Therefore, many shoes that would be sold at first quality prices by other companies are sold at a discount at our General Store. You'll still find the superb structure and comfort you've come to expect from the SAS brand in these shoes, but small cosmetic flaws don't pass our quality standards and therefore are sold at the General Store at a discount.

The SAS Shoe Factory and General Store is located at  
101 New Laredo Hwy.  
San Antonio, Texas 78211.

## Store Hours:

Monday-Friday 9:00am to 6:00pm  
Saturday 9:00am to 5:00pm  
Sunday closed.

## Factory Tours:

A *little* PIECE OF HISTORY IN  
SAN ANTONIO, TX

San Antonio Shoemakers™ | SASshoes.com | Customer Service (877) 782-7463

# keep moving™

Keep moving™ is a wish San Antonio Shoemakers has for all customers, employees, family and friends: keep moving comfortably, keep moving in life, keep moving in an effort to inspire others. It embodies the spirit of caring, a characteristic at the heart of SAS. Don't call it a motto. Call it a mission.

S Max, D&D

## Keep MOVING COMFORTABLY

You can thank a lifelong friendship for the comfort and quality found in SAS shoes. Terry and Lew followed their dream to make the most comfortable shoes in the market. Their simple formula, fine leather, quality materials and close attention to detail is what gave this company its start at becoming the worldwide brand it is today. With each pair of shoes that leaves one of two Texas factories, you'll feel the hard work and dedication of two ingenious founders, along with over three decades of a family promise, right at your feet.

S Richard, Last Making

## Keep MOVING TO INSPIRE

Co-founders Terry Armstrong and Lew Hayden were inspired to make a dream come true for their families and their unsuspecting customers. That same inspiration is taken a step further through community involvement and several philanthropic efforts. To carry out the mission, the SAS Comfort and Support Team was established to visit disaster-stricken areas to provide those in need with a comfortable pair of shoes to get back on their feet. This group of caring individuals travels to the site and fits victims for a brand new pair of shoes but most importantly, shares a moment of fellowship. It doesn't stop there. The brand has also aligned with non-profit agencies, teaming together to bring awareness and resolve to problems affecting everyday people. One pair of shoes at a time is how SAS keeps moving to inspire and care for others.

## Keep MOVING IN LIFE

The style of your life is of utmost importance at SAS. Because sometimes being comfortable isn't enough, a new collection of modern choices have been introduced to suit your lifestyle and are poised to become the new American classics. Now, vibrant colors for women and polished styles for men are the norm, not the exception. Available in a wide range of sizes and widths, these handcrafted traditions are made to fit all.

S Neyda, Stitching
